I am an energetic, honest, and results-driven man with a proven track record in optimizing work processes and achieving ambitious goals. With a Bachelor's degree or higher level of work and thinking, I perform best in a dynamic environment where flexibility is required.

Work experience

December 2021 to present

Operations Coördinator PET | Indorama Ventures Europe

The Operations Coordinator in continuous contact with all other departments site-wide and anticipate deviations or unforeseen circumstances. Good working relationships and communication skills are a must-have for this position. This includes:

- **De-commissioning Indorama PET plants;** The project involved delivering the PET plants clean and chemical-free, where I developed plans, collaborated with various stakeholders, and led a team to complete the work on time despite a shrinking organization.
- **Participation in BRZO audit team:** Facilitating government visits to PET plants, following up on ad-hoc and long-term action points arising from the audits. Ensuring the adjustment and/or development of procedures.
- **Collaboration with purchasing, logistics, and sales** to align production planning with available materials, orders, and demand.
- **Planning daily maintenance and short stops** to ensure optimal operation of production lines.
- **Initiating, monitoring, and guiding MOCs (Management of Change)** to implement process improvements.
- **Following up on action points from production meetings** by providing instructions to the shift team.
- **Managing the maintenance coordinator and day technician** to ensure maintenance and the technical aspects of production.

2008 to December 2021

Head Manufacturing Technician | Indorama Ventures Europe

In this position, I have proven myself as an experienced team leader with broad technical expertise. During my role as Head Manufacturing Technician, I have acquired a wide range of skills and experiences that are relevant to a technical leadership role. My duties included, among others:

- **Long-term substitution as Team Coach**, leading a team of 11 employees during the absence of the team leader.
- **Project management**, successfully leading a project to completion within the set timeframe and budget.
- **Demonstrated and implemented process improvement** initiatives to optimize processes in collaboration with various disciplines.
- **Emergency response during various incidents**, experienced in handling crisis situations and effective communication with various agencies.
